“
"Their work was an upgrade to our previous system, and they committed to us to address any bug that arose."

PROJECT SUMMARY

A healthcare platform hired deltAlyz Corp. to provide custom software development. They used technologies like Microsoft Azure, Microsoft Power BI, and Logic to create a data analysis platform.

PROJECT FEEDBACK

The platform that deltAlyz Corp. enabled the client to access, collect, and save data more easily. deltAlyz Corp. led a responsive and swift process to ensure solid project management. The client also praised their knowledge and skill set to address their requirements.

The Client

Introduce your business and what you do there.

I'm a developer at a healthcare platform. We have a web and mobile app that allows users to manage their health.

The Challenge

What challenge were you trying to address with deltAlyz Corp.?

We wanted a system that could intake all the analytics data generated by our application and third-party platforms like Google Analytics, Stripe, and Apple in one place.

CLIENT RATING

Quality: 4.5

Schedule: 5.0

Cost: n/a

Would Refer: 4.5

The Approach

What was the scope of their involvement?

deltAlyz Corp. did custom software development for us using Microsoft Azure, Microsoft Power BI, Logic, and some other third-party plug-ins to bring data from other sources. To jumpstart the process, we had initial meetings where we gave them all the information they needed regarding our requirements so they could get started with the process.

What is the team composition?

We worked with 4–5 members of their team, including Rabi (Data Analytics, Business Intelligence & Process Automation Expert).

How did you come to work with deltAlyz Corp.?

One of our team members found them.

What is the status of this engagement?

We worked together from February–April 2022.

The Outcome

What evidence can you share that demonstrates the impact of the engagement?

Thanks to the platform deltAlyz Corp. created, now it's easier to access data and integrate with third-party data sources. In addition, they were able to create a platform with the ability to store data that changes over time, which was our main goal. Overall, their work was an upgrade to our previous system, and they committed to us to address any bug that arose.

How did deltAlyz Corp. perform from a project management standpoint?

They were responsive and quick to address our needs. We also had scheduled follow-up meetings with back-and-forth communication to review the project's progress. In terms of tools and communication, we used Asana and Microsoft Teams.

What did you find most impressive about them?

They had a strong knowledge of development, which enabled them to build the system we were interested in with our customization needs. Moreover, deltAlyz Corp. had an experienced team that trained our staff to use the software.

Are there any areas they could improve?

I didn't think there was something they could improve on.

Do you have any advice for potential customers?

Tap into their expertise and ask all the questions that arise because they can help you understand your needs as long as you provide all the information they need.
