

# Power BI Training for Transportation Organization

## PROJECT DETAILS

📁 BI & Big Data Consulting & SI

📅 May 2021 - Jun 2021

🔒 Confidential

“  
"They had an excellent project management process."

## PROJECT SUMMARY

deltAlyz Corp. conducted Power BI trainings for a transportation firm to help them utilize their software for their reporting and analytics needs. Overall, they conducted three sessions between May–June 2021.

## PROJECT FEEDBACK

Detailed and helpful, deltAlyz Corp. conducted successful Power BI training sessions. The client was impressed by how they explained the process of using the software for data analytics. Their solid workflow coupled with their strong knowledge made for a harmonious and fruitful collaboration.

## The Client

Introduce your business and what you do there.

I work for the federal government as a senior financial analyst.

## The Challenge

What challenge were you trying to address with delatAlyz Corp.?

We hired delatAlyz Corp. to give us training on how to use Power BI for data analytics.

 Sr Financial Analyst,  
Transportation  
Organization

 Transportation

 Ottawa, Ontario

### CLIENT RATING

Quality: 4.5

Schedule: 5.0

Cost: 4.5

Would Refer: 5.0

## The Approach

### What was the scope of their involvement?

They focused on how we could use Power BI as the software we could use for reporting and analysis in our organization. We had a two-day session with them in May. After that, I had a follow-up one-day session for myself in June.

### What is the team composition?

There was only one instructor for our team, but I wasn't sure if they had more employees in the background.

### How did you come to work with deltAlyz Corp.?

deltAlyz Corp. was found by our data and analytics team manager. She was the one who organized the sessions.

### What is the status of this engagement?

We worked together from May–June 2021.

## The Outcome

### What evidence can you share that demonstrates the impact of the engagement?

The instructor we had was very thorough; he presented himself and the software extremely well. He was also able to walk us through the step-by-step process of using Power BI. On top of that, he provided incredible explanations that could be understood by people who weren't that well-versed in data analytics.

## How did deltAlyz Corp. perform from a project management standpoint?

They had an excellent project management process; deltAlyz Corp. had a set agenda of what would be covered in the sessions and the only time we exceeded it was because they devoted extra time to answer specific questions. We used Microsoft Teams to communicate during the engagement.

## What did you find most impressive about them?

I haven't been really exposed to others extensively, so I wouldn't be able to compare them. However, our experience with deltAlyz Corp. was great. If I would hire them again, their instructor would be perfect because he had high-level knowledge.

## Are there any areas they could improve?

The material they discussed was very extensive. Thus, for some of the people in our organization, the discussion was very compressed. It would've been helpful if they had allotted extra time or segregated the amount of material they presented. However, my comment would be very subjective because understanding their presentation would differ from one person to another.

## Do you have any advice for potential customers?

Review your software ahead of time if you have the opportunity so that your training sessions with deltAlyz Corp. will be much easier.
